

City of Cottage Grove and Cottage Grove Economic Development Authority Public Financing Criteria and Business Subsidy Policy Modified December 2019

INTRODUCTION:

This Policy is adopted for purposes of the business subsidies act, which is Minnesota Statutes, Sections 116J.993 through 116J.995 (the “Statutes”). Terms used in this Policy are intended to have the same meanings as used in Statutes. Subdivision 3 of the Statutes specifies forms of financial assistance that are not considered a business subsidy. This list contains exceptions for several activities, including redevelopment, pollution clean-up, and housing, among others. By providing a business subsidy, the City commits to holding a public hearing, as applicable, and reporting annually to the Department of Employment and Economic Development (DEED) on job and wage goal progress.

1. PURPOSE AND AUTHORITY

- A. The purpose of this document is to establish criteria for the City and the City’s Economic Development Authority (“EDA”) for granting of business subsidies and public financing for private development within the City. As used in this Policy, the term “City” shall be understood to include the EDA. These criteria shall be used as a guide in processing and reviewing applications requesting business subsidies and/or City public financing.
- B. The City's ability to grant business subsidies is governed by the limitations established in the Statutes. The City may choose to apply its Business Subsidy Criteria to other development activities not covered under the statute. City public financing may or may not be considered a business subsidy as defined by the Statutes.
- C. Unless specifically excluded by the Statutes, business subsidies include grants by state or local government agencies, contributions of personal property, real property, infrastructure, the principal amount of a loan at rates below those commercially available to the recipient of the subsidy, any reduction or deferral of any tax or any fee, tax increment financing (TIF), abatement of property taxes, loans made from City funds, any guarantee of any payment under any loan, lease, or other obligation, or any preferential use of government facilities given to a business.
- D. The criteria in this Policy are to be used in conjunction with other relevant policies of the City. Compliance with this Public Finance Criteria and Business Subsidy Policy shall not automatically mean compliance with such separate policies.

- E. The City may deviate from the job and wage goals criteria outlined in Section 5 D and E below by documenting in writing the reason(s) for the deviation. The documentation shall be submitted to the DEED with the next annual report.
- F. The City may amend this document at any time. Amendments to these criteria are subject to public hearing requirements contained in the Statutes.

2. CITY’S OBJECTIVE FOR THE USE OF PUBLIC FINANCING

- A. As a matter of adopted policy, the City may consider using public financing which may include tax increment financing (TIF), property tax abatement, loans, bonds, and other forms of public financing as appropriate, to assist private development projects. Such assistance must comply with all applicable statutory requirements and accomplish one or more of the following objectives:
 - 1. Remove blight and/or encourage redevelopment in designated redevelopment/development area(s) per the goals and visions established by the City Council and EDA.
 - 2. Expand and diversify the local economy and tax base.
 - 3. Encourage additional unsubsidized private development in the area, either directly or through secondary “spin-off” development.
 - 4. Offset increased costs for redevelopment over and above the costs that a developer would incur in normal urban and suburban development (determined as part of the But-For analysis).
 - 5. Facilitate the development process and promote development on sites that could not be developed without public financing assistance.
 - 6. Increase the number and diversity of quality jobs and/or retain local jobs at high wages
 - 7. Provide the highest and best desired use for the property
 - 8. Improve or add public infrastructure such as roads, utility extensions, storm water ponding, etc.
 - 9. Establish business interest that add to the diversity of the City’s offerings

3. PUBLIC FINANCING PRINCIPLES

- A. The guidelines and principles set forth in this Policy pertain to all applications for City public financing regardless of whether they are considered a Business Subsidy as defined by the Statutes. The following general assumptions of development/redevelopment shall serve as City public financing guidelines:
 - 1. All viable requests for City public financing assistance shall be reviewed by staff, and a third party municipal advisor who will inform the City of its findings and recommendations. This process, known as the “But For” analysis is intended to establish that the project would not be feasible but for the City financing assistance.

2. The City shall establish mechanisms within a development agreement to ensure that adequate checks and balances are incorporated in the distribution of financial assistance where feasible and appropriate, including but not limited to, establishment of a “look back provision” and other performance criteria deemed necessary by the City.
3. TIF and property tax abatement will be provided on a pay-as-you-go-basis. Any request for upfront assistance will be evaluated on its own merits and may require security to cover any risks assumed by the City.
4. The City will set up TIF districts in accordance with the maximum number of statutory years allowable. However, this does not mean that the developer will be granted assistance for the full term of the district.
5. The City will elect the fiscal disparities contribution to come from inside applicable TIF district(s) to eliminate any impact to the existing tax payers of the community.
6. Public financing will not be used to support speculative commercial, office or housing projects. In general the developer should be able to provide market data, tenant letters of commitment or finance statements that support the market potential/demand for the proposed project.
7. Public financing will not be used in projects that would give a significant competitive financial advantage over similar projects in the area due to the use of public financing assistance. Developers shall provide information to support that assistance will not create such a competitive advantage. Priority consideration will be given to projects that fill an unmet market need as determined by the City.
8. Public financing will not be used in a project that involves a land and/or property acquisition price in excess of fair market value.
9. Public financing will not be used for single-family residential developments or stand-alone corporate-owned fast food restaurants. In addition, public financing will not be used for big-box retail that is not part of a redevelopment project or special purpose project of the City.
10. The developer will pay all applicable application fees and pay for the City’s fiscal and legal advisor time as stated in the City’s Public Assistance Application.
11. The City will consider waiving fees on a case-by-case basis including, but not limited to, park dedication fees, water and/or sewer/storm sewer connection or area charges. The City may consider using SAC credits, to the extent they are available, to off-set a project’s SAC expenses.
12. The developer shall proactively attempt to minimize the amount of public assistance needed through the pursuit of grants, innovative solutions in structuring the deal, and other funding mechanisms.
13. All developments are subject to execution and recording of a Minimum Assessment Agreement and Development Agreement.

All new applications for public assistance considered by the City must meet all the minimum qualifications in Section 4.1, 4.2 A and B, and as many of the desired qualifications in Section 4.2 C as feasible. However, it should **not** be presumed that a project meeting these qualifications will automatically be approved for assistance. Meeting the qualifications does not imply or create contractual rights on the part of any potential developer to have its project approved for assistance.

4.1 MINIMUM QUALIFICATIONS/REQUIREMENTS:

- A. In addition to meeting the applicable requirements of State law, the project shall meet **two or more** of the public financing objectives outlined in Section 2.

- C. The creation of tax base shall not be the sole public purpose of a subsidy.
- D. Unless the creation of jobs is removed from a particular project pursuant to the requirements of the Statutes, the creation of jobs is a public purpose for granting a subsidy. Creation of at least **one (1)** new full time employee (FTE) is a ***minimum requirement*** for consideration of assistance and, it should **not** be presumed that a project meeting this minimum requirement will automatically be approved for assistance. The City may require more jobs be created in order for a developer to receive public assistance. For purposes of this Policy, FTE's must be permanent positions with set hours, and be eligible for benefits.
- E. The wage floor for wages to be paid for the jobs created shall be not less than **200%** of the State of MN Minimum Wage.
