

# **Granada Avenue Water Main Extension**

## **Project Update**

**6/11/20**

### **Project recap 6/8 to 6/12**

- More grinding of the pavement took place on Granada Ave. from Granada Alcove intersection to Granada Bay/Circle intersection. Pavement grinding also took place on one side of each of the Granada Bay, Granada Circle, and Granada Alcove cul-de-sacs.
- Water main has now been installed down to the Granada Alcove/Granada Ave. intersection along Granada Avenue.
- Water main jacking and boring operations began on the north side of the 70<sup>th</sup> Street and Granada Avenue intersection to install water main underground across 70<sup>th</sup> Street.

### **Proposed Work Schedule for 6/15 to 6/19**

- The contractor will continue the jacking and boring operations on the north side of 70<sup>th</sup> Street and Granada Avenue intersection to bring water main under 70<sup>th</sup> Street.
- The east lane of Granada Avenue between 70<sup>th</sup> Street and 71<sup>st</sup> Street will be ground up to a gravel surface. Water main will then be installed under this lane.
- Water Service Drillers will continue drilling water service piping into homes that we have contacted and have scheduled. We will keep reaching out to home owners as the project moves along to schedule a day for service drilling work. This is only for residents who have signed water service agreements with the City.
- Please contact Marcus Gunderson with SEH Engineering with any project related questions
